

High School Program Guide

2026–2027

Frontier Schools Philosophy

Vision Statement

Be a vibrant and innovative educational leader.

Mission Statement

The mission of Frontier Schools is to empower students to discover and develop their gifts and talents:

- in pursuit of college readiness, productive citizenship, and lifelong learning
- within an atmosphere of academic excellence with a STEM (*Science, Technology, Engineering and Math*) focus
- to prepare for the STEM-related jobs now projected for the American workforce
- meeting the needs of all, including those whose primary interest is non-STEM
- providing flexibility to expand in the future to a STEAM environment by adding an Arts component

SECTION I:

Frontier – College Ready

At Frontier, students are expected to master their subjects, and every Frontier student graduates college-ready and career ready. Our high school program is designed to provide each student with the essential elements of a college prep education, along with opportunities to engage in the exploration of intense study within particular fields of interest.

Through the following components, every Frontier student will attain skills and abilities that are necessary to be successful in college and beyond.

Rigorous Curriculum

Frontier offers rigorous and relevant coursework with a heavy emphasis on STEM courses. Middle and high school curriculum and programs are designed to prepare students for college level coursework.

College Geared Coursework

Frontier's high school program is designed to ensure acceptance, enrollment, and success in four-year colleges/universities. Students are expected to successfully complete a minimum of 24 credits in different subject areas identified by the state of Missouri.

Progress Monitoring with Ongoing Assessment & Personalized Support

Frontier educators have necessary tools to monitor academic progress of each student and to adjust instructional strategies to better meet students' needs. Based on ongoing assessment and data analysis, personalized learning opportunities and individualized need-based support will be provided to every student in order to achieve their college and career goals.

College and Career Counseling Support for Students

Our goal is to guide every Frontier student in preparing for and achieving his or her postsecondary goals and aspirations. College counselors provide individualized support to each student in the five areas of college and career readiness.

- Personal Readiness
- Academic Readiness
- Career Readiness
- College Admissions
- Financial Aid & Scholarships

Student Expectations and Commitment

At Frontier, all students are expected to:

- Complete Frontier Schools Standard or Honors Graduation Plan
- Complete state-mandated end-of-course tests (EOC)
- Show proof of completion of at least 60 hours of community service
- Receive acceptance to a two or four year college or university
- Take the ACT, SAT, ASVAB, ACCUPLACER ® or ACT WorkKeys Test according to their post-high school plans

College Readiness Monitoring

FS implements End-of-Course (EOC), Northwest Evaluation Association (NWEA), PreACT, ACT, PSAT/NMSQT®, PSAT™ 8/9, PSAT™ 10, Accuplacer assessments to track the academic readiness of students. Students who meet minimum expected scores for each grade level are on target to be college ready.

- **End-of-Course (EOC):**

The Missouri Assessment Program assesses students' progress toward the Missouri Learning Standards, which are Missouri's content standards. End-of-Course assessments are taken when a student has received instruction on the Missouri Learning Standards for an assessment, regardless of grade level. Missouri's suite of available End-of-Course assessments includes: English I, English II, Algebra I, Algebra II, Geometry, American History, Government, Biology and Physical Science. Districts must ensure that students completed EOC assessments in Algebra I, English II, Biology, and Government prior to high school graduation.

For students who complete the Algebra I EOC assessment prior to high school, Algebra II is the required high school mathematics assessment for accountability purposes. All students, including Missouri Option students, are required to participate in EOC assessments designated as "required" for accountability purposes. A few groups of students are exempt from EOC assessments required for accountability purposes. Exempt student groups include:

- Students whose IEP teams have determined that they are eligible to participate in the Missouri Assessment Program–Alternate (MAP–A).
- English Language Learners (ELL) who have been in the United States 12 cumulative months or fewer at the time of administration may be exempted from taking the English II and/or English I assessments.
- Foreign exchange students*
- Home schooled students*

** Not required to participate, but may do so at the local district's discretion.*

- **Northwest Evaluation Association (NWEA):**

Founded by educators nearly 40 years ago, Northwest Evaluation Association™ (NWEA™) is a global not-for-profit educational services organization known for our flagship interim assessment, Measures of Academic Progress® (MAP®). More than 7,400 partners in U.S. schools, districts, education agencies, and international schools trust us to offer pre-kindergarten through grade 12 assessments that accurately measure student growth and learning needs, professional development that fosters educators' ability to accelerate student learning, and research that supports assessment validity and data interpretation.

- **American College Testing (ACT):**

The Enhanced ACT is a standardized test that measures a student's skills in five core areas: English, math, reading, science (*optional*), and writing (*optional*). Students in grades 11 and 12 take the ACT so that they can submit their scores to colleges as part of the college application process.

Students who earn a composite ACT score below 18 will be required to take the Accuplacer Exam, as an ACT score of 18 is considered a minimum benchmark for college readiness.

Subject Area	Total Questions	Time	Score Range
English	50	35 Minutes	Between 1–36
Math	45	50 Minutes	Between 1–36
Reading	36	40 Minutes	Between 1–36
Science (<i>Optional</i>)	40	40 Minutes	Between 1–36
Writing (<i>Optional</i>)	1 Essay	40 Minutes	Between 2–12

- **Scholastic Aptitude Test (SAT):**

The SAT is a standardized test widely used for college admissions in the United States. It is an alternative for ACT.

Component	Time Allotted (Minutes)	Number of Questions/Tasks
Reading & Writing	64 (Two 32-Minute Modules)	54
Math	70 (Two 35-Minute Modules)	44
Total	134	98

- **The ACCUPLACER Exam**

The ACCUPLACER suite of assessments consists of five multiple-choice placement tests, four multiple-choice English as a Second Language (ESL) tests, and two essay tests. The ACCUPLACER tests are designed to assist institutions in placing test takers into appropriate college-level courses. Below presents an overview of the assessments available in the ACCUPLACER suite.

The ACCUPLACER Suite of Assessments	
Placement Tests	• Reading • Writing • Arithmetic • Quantitative Reasoning, Algebra, and Statistics • Advanced Algebra and Functions
ESL Tests	• Reading Skills • Sentence Meaning • Language Use • Listening
Essay Tests	• WritePlacer • WritePlacer ESL

Intervention for College Readiness

FS intervention programs are designed at each grade level to ensure that students are on the college readiness track. FS has an ongoing benchmarking system to monitor the progress of each student. Then, assessment data is used to develop an individualized learning plan for each student.

National Honor Society

High school students who have maintained a minimum GPA of 3.0 during their high school career are eligible for nomination to the school's local chapter of the National Honor Society. Students seeking admission should contact the sponsor for admission guidelines. The student must have been enrolled in the current school for at least one semester. Selection for membership is based upon a student's evidence of scholarship, service, leadership, and character. Selection will be made by a faculty council appointed by the Principal. Discipline referrals and excessive absences will constitute evidence of deficiencies in character and leadership. Service contributions are determined by completion of a service form by the nominee and scored by the faculty council. Induction is held twice during each academic year.

SECTION II:

General Information

Attendance

Attendance Requirements to receive credits for courses:

- 1. Students must attend school **90% of the time** in order to be eligible to receive credits.
- 2. The Attendance Review Committee will make the ultimate decision whether or not the student receives credit in a class.
- 3 Dual Credit students must meet the attendance requirements set by the local campus.
- 4. IEP and 504 committees may be considered as an attendance committee for students with disabilities.

Minimum Course Load

9th, 10th and 11th grade students are required to enroll six classes at minimum per semester. 12th grade students are required to enroll in eight classes (*or equivalent*) per semester.

EXCEPTIONS:

- 1. Senior students who are on track for their graduation credit requirements and are enrolled in Dual Credit and AP courses may be granted Independent Study classes. Counselor/administrator approval is required.

New Student Classification

All students applying to Frontier Schools must apply for the appropriate grade level in accordance with the classification table below and the number of credits reflected on their most recent official transcript.

Freshman (9 th Grade)	0.00–4.50 Credits
Sophomore (10 th Grade)	5.00–10.50 Credits
Junior (11 th Grade)	11.00–16.50 Credits
Senior (12 th Grade)	17.00–26.00 Credits

How to Earn Credit

Courses vary from one to two semesters in length. Students can earn a half credit for each semester course and a whole credit for a year-long course* (*exceptions may apply*). Students earn credits when they pass their courses with the minimum of 60% average and meet 90% attendance requirement. Each semester stands alone. Semesters are not averaged together except in cases of student progression plan.

To earn one unit of credit, a student must meet all the course requirements and earn a passing grade in a course that meets for at least 7,830 minutes a year. Half-units of credit may be earned for courses meeting proportionately fewer minutes.

The following are ways a student can earn credit:

- A course is taken as a part of the student's high school schedule
- A Dual Credit college course – approved by counselor – is taken for high school credit and college credit (*must be one of the approved courses listed on the dual credit list-- refer to the Dual Credit programs, Section V.*)
- Online courses – approved courses through accredited online course providers
- Summer School Opportunities

Students and parents assume the responsibility for registering for, and completing courses attempted. Students and parents assume the cost of taking courses outside of their regular high school schedule.

Students must talk to their counselor for information regarding alternate methods of acquiring credits before signing up for any course.

Recovering/Retaking a Course

Students who receive a failing grade must recover the course in order to receive the required credit.

Below are the guidelines for credit recovery:

- The school may offer recovery courses during the summer school or academic year.
- The school administration identifies the criteria of recovery courses.
- Students can also take recovery courses online or at other schools with the approval of school administration.
- Both grades will appear on the transcripts.
- Only the most recent grade will be calculated in the overall grade point average.

Occasionally, students may wish to retake a course to improve their knowledge and skills in that subject matter area.

If they had previously earned the credit, the following guidelines will apply:

- No additional credit is earned when a course is repeated.
- Both grades will appear on the transcript.
- The most recent grade will be calculated in the GPA.
- The policy does not apply to courses that are intended to be repeated, such as: band, newspaper, weight training, etc.
- 90% attendance is required.
- Administrative approval is required.

Students may wish to retake a dual credit course to improve a failing or low grade. In this case, the fees (*tuition, textbook, other materials*) for the previous class must be fully paid back to school. Only the second (*the most recent*) grade will affect the GPA. Both grades will appear on the transcript.

Schedule Changes

Students must choose their courses carefully and with the advice of their counselor and parents to minimize the need for a change. The master schedule is built to accommodate the classes originally chosen by the student.

Schedule changes based on teacher, elective, or section preferences may not be honored. The administration reserves the right and has the responsibility to only make changes as necessary to meet graduation requirements, balance class sizes, correct administrative or clerical error, reflect changes in school personnel, or other educationally appropriate reasons.

Dropping a Class

- **Changes requested after the Course Plan has been submitted will be made only for the following reasons per counselor approval:**
 - A Senior needs to make up deficient graduation credits
 - A student received a failing grade and needs to repeat the class for high school graduation requirements or to meet college eligibility requirements
 - A student is in the incorrect course level
 - A course requested will not be offered due to budgetary restraints or low class size
 - A student completed a course credit at summer school
- **During the **first 10 school days** of class, students may request a schedule change according to the following guidelines:**
 - Level changes can be requested by students and parents based on availability (*grades from the dropped upper level course will be carried into the added lower level course*)
 - Placement recommendation based on academic performance
 - Medical/health issues require adjustment in schedule
 - Course needed for graduation or college eligibility requirements

Grading Scale, Class Ranking, GPA

Grade Calculation

A student's Grade Point Average (GPA) is calculated by dividing the total amount of grade points earned by the total amount of credit hours attempted. All semester grades for courses attempted will count toward a student's GPA. Weighted GPA is used to determine class rank. Unweighted GPA is used for admission to most colleges and universities, and for scholarships at in-state schools.

Grading Scale and Course Weight

A student's Grade Point Average (GPA) is calculated by dividing the total amount of grade points earned by the total amount of credit hours attempted. All semester grades for courses attempted will count toward a student's GPA.

Letter Grade	Grade Range	AP/DUAL/PLTW	Pre-AP	On-Level Course
A	90-100+	5.0	4.5	4.0
B	80-89	4.0	3.5	3.0
C	70-79	3.0	2.5	2.0
D	60-69	2.0	1.5	1.0
F	0-59	0.0	0.0	0.0

Senior Class Rank

Frontier Schools are ranking schools. A class rank indicates how a student's grades compare with those of other students in his/her class.

Class rank is determined by the weighted grade point average (GPA) of all high school credit courses taken through the end of the eighth semester.*

To be eligible for senior class ranking (*valedictorian and salutatorian*) students must be enrolled for their junior and senior years in the same high school, and graduate in no fewer than eight regular semesters.

***Rank for graduation status (*valedictorian/salutatorian*) is determined by the final overall weighted high school GPA at the end of the eighth semester. If two or more students have the same weighted GPA, unweighted GPA will be used as the tiebreaker.**

Graduation Ceremony

Students completing the Frontier Schools and State of Missouri requirements for graduation will be granted a high school diploma. FS annually sponsors a graduation ceremony for students who have completed requirements established by both the FS and the State. Students who have not completed requirements may participate in the graduation ceremony with an approval from the principal. Even if the student participates in the graduation ceremony, he or she may remain enrolled to complete the FS requirements and earn his and her high school diploma; however, the student will only be allowed to participate in the graduation ceremony.

Students must purchase their cap and gown from a school-approved vendor to participate in the graduation ceremony. Ordering graduation cap and gown, announcements, or other senior memorabilia does not guarantee a student's participation in graduation ceremonies. Graduation announcements are not invitations to the graduation ceremony. If a student does not attend and does not participate in the graduation ceremony practice/rehearsal, the student is ineligible to participate in the FS Graduation ceremony.

Graduation attire, including caps, gowns, stoles, cords, and other accessories, may not display political, racial, discriminatory, offensive, or otherwise inappropriate messages, symbols, or images. Frontier Schools reserves the right to determine whether any attire or decoration is inappropriate for the graduation ceremony. Students who violate this expectation may be prohibited from participating in or may be removed from the graduation ceremony.

Honor Roll

To recognize outstanding academic performance, high school students may qualify for one of the following honor roll distinctions:

Recognition	GPA Requirement	Minimum Grade Requirement
Principal's Honor Roll	4.00+	No grade lower than A
High Honor Roll	3.50–3.99	No grade lower than B
Honor Roll	3.00–3.49	No grade lower than C

Students must meet both the GPA requirement and the minimum grade requirement to qualify.

Credits from Other Institutions

Credits earned during the summer following the junior year will be entered to the junior year course lists and be counted in the overall GPA and ranking computations. Any credits received **after September 1st** will be entered to the senior course list and will not affect the ranking submitted to colleges during the fall semester of the senior year. It is the student responsibility to ensure summer credits are submitted on time and properly entered to their course lists.

High School Courses Completed Before Ninth Grade

Students who complete high school-level coursework before entering ninth grade may receive transcript recognition or, in limited cases, full high school credit if they meet the requirements outlined below. A maximum of two courses may be recognized or credited under this policy.

Transcript Recognition (Pass Only – No Credit Awarded)

A course completed before ninth grade may be listed on a Frontier Schools high school transcript when the student:

- Successfully completed a course equivalent in content and rigor to a Frontier Schools high school course;
- Earned a final course grade of at least B (80%);
- Scored Proficient or Advanced on the corresponding Missouri state assessment, when applicable, or on an equivalent assessment from another state.

Course equivalency shall be determined by Frontier Schools. Families must submit an official transcript or report card and, upon request, a course syllabus or other supporting documentation.

Courses recognized under this section:

- Appear on the transcript as P (Pass);
- Do not earn high school credit;
- Do not count toward graduation requirements;
- Do not affect GPA, class rank, honor roll, valedictorian, or salutatorian eligibility.

Earning Full High School Credit Through Frontier Summer School

Students who qualify for transcript recognition may earn full high school credit by successfully completing the same or an equivalent course through the Frontier Schools Summer School Program during the summer immediately preceding ninth grade.

To earn high school credit, students must:

- Enroll in and successfully complete the approved Summer School course;
- Earn a passing grade;
- Scored Proficient or Advanced on the corresponding Missouri state assessment, or — if no state assessment is available for the course — scored 60% or higher on the Frontier end-of-course exam administered as part of the course

Students who do not meet all requirements will not receive high school credit.

Courses approved for high school credit under this provision:

- Appear on the transcript with a letter grade;
- Earn the same credit value assigned to the equivalent Frontier Schools high school course;
- Count toward graduation requirements;
- Affect GPA, class rank, honor roll, and graduation honors in the same manner as all other high school courses.

Students and families may choose not to pursue transcript recognition or accelerated credit and instead enroll in the standard high school course sequence.

Credits Earned Through School–Approved External Programs

Students may earn high school credit through school-approved educational programs offered by external organizations or partner institutions approved by Frontier Schools.

To receive credit, students must:

- Obtain prior approval from Frontier Schools administration
- Successfully complete all program requirements

The amount and type of high school credit awarded shall be determined by Frontier Schools administration based on the content, rigor, instructional time, and educational outcomes of the program.

Students who do not successfully complete all program requirements or who withdraw from the program before completion may not be eligible to receive credit.

Frontier Schools reserves the right to review and approve all external programs and determine whether credit will be awarded.

Transfer Students

A student transferring into the district from a DESE accredited school will receive the numerical grade earned in courses from that school. Weighted courses will be honored and converted to match our system.

Students Transferring from schools outside of the United States:

Students from other countries will receive Ps for passing appropriate courses. Translation of out-of-country transcripts is the responsibility of the parent/guardian. Awarding of credit will be determined by school administration after review of all documentation.

Students from Home Schooling Programs and unaccredited private schools:

Credits earned through home schooling programs and unaccredited private schools will not be calculated for GPA and class rank by the district. Students must provide documentation of enrollment and completion of courses in order to get credit. Students will receive Ps for passing appropriate courses.

SECTION III:

High School Graduation Requirements

In order for a student to graduate from Frontier Schools, the student must fulfill:

1. FS high school credit requirement
2. Admission by a 2-year/4-year college
3. Minimum 60 community service hours¹
4. Complete state-mandated end-of-course tests (EOC)
5. Must take the ACT, SAT, ASVAB, ACCUPLACER® or ACT WorkKeys Test according to their post-high school plans

Course-by-Credit Summary

Frontier Schools High School Program is designed to ensure acceptance, enrollment, and success in 4-year universities, and requires the following course-by-credit plan for all students, regardless of the plan they choose to graduate. Students should meet with a counselor to discuss Individual Career Academic Plans (ICAP). Exceptions may apply to students receiving Special Education services.

Course	Frontier Schools Standard Diploma	Frontier Schools Honors Diploma
Communication Arts	4.00	4.00
Mathematics	4.00	4.00
Science	3.00	4.00
Social Studies	3.00	3.00
Personal Finance	0.50	0.50
Physical Education	1.00	1.00
Foreign Language	2.00 ²	3.00
Fine Arts	1.00	1.00
Health	0.50	0.50
Practical Arts	1.00	1.00
Electives	6.00	4.00
Total	26	26

¹ Community service requirement is 15 hours per year.

² May be waived for students in special programs, transfer students with no LOTE credit, etc.
"Frontier Schools Minimum Standard Diploma" will be awarded to these students.

Graduation Options for Students with Disabilities

Students with disabilities are provided an individualized educational program with various opportunities to succeed. Annual meetings are held with students with disabilities and their parents in which an Individualized Educational Plan (IEP) is developed and an appropriate educational plan is determined. Students receiving special education services follow the curriculum and credit requirements required of all students as determined by their prospective graduation plan. Students with identified special needs will be provided appropriate accommodations in regular classes. Should students need modification of the state standards, they may be served in specialized classes according to their Individual Education Plan (IEP).

Community Service

Students are required to accumulate a total of 60 service hours throughout high school to graduate.

What is Community Service?

Community service is a voluntary activity that helps address a shortage of some sort in the community. The community service you select should be aligned with your personal interest and skills. It is an opportunity to gain experience on the way to college readiness and exemplary citizenship.

Why is Community Service Important?

Giving back to your community while engaging in an activity you truly are interested in doing is a win-win. Serving your community will address the persisting needs and problems thus helping your community become stronger as a function of it. Community service hours provide a unique opportunity to build social, leadership, and problem solving skills. These skills are essential in finding a job. Finally, you get an opportunity to apply your knowledge in real life. Don't forget, colleges also pay attention during college application.

Community Service Guidelines

- Regularity of service is recommended than irregular patches of hours here and there as it shows your commitment.
- Students cannot get paid for the work, nor can they fill a position that would normally be a paid position.
- Service **MAY NOT** be performed for family members or for profit making organizations.

- Community service must be completed at a non-profit organization; therefore students should ask the organization or business if they are non-profit prior to performing activities. The term “non-profit” does not relate to whether or not the student is paid for the activities performed. As a general rule, activities performed at places like libraries, schools, Meals on Wheels, hospices, Habitat for Humanity and faith-based organizations are acceptable. Please keep in mind that hair salons, barber shops, martial arts studios, doctors’ offices and physical therapy facilities are FOR PROFIT businesses and therefore unacceptable, even if you volunteer to help in them. It is the responsibility of the student to make sure that the hours are properly logged in by the organization.
- Students may earn community service hours through school-sponsored clubs and organizations for service activities that have received prior approval from school administration. A maximum of 15 community service hours earned through club-sponsored activities may be applied toward the graduation requirement during a single school year.
- Service may **NOT** be performed during the school day except during a student’s lunch period. Service must be performed during the students’ own time (*before/after school and/or weekends*).
- Activities performed at faith-based organizations such as churches, synagogues or mosques will be counted towards the community service requirement as long as the activities are **NOT** religious in nature. For example, activities performed at an after school program housed in a church will count, but assisting in a worship service or Bible Study does not count.
- It is the responsibility of the student to make sure that the hours are properly logged by the organization. Students will turn in the service letters to the college counselor. Letters that describe service performed must be on official letterhead produced by the organization. Letters must include the organization’s official work phone numbers only; cell phone numbers are not acceptable. Community service letters cannot be written on behalf of a family member or relative. Certificates are not acceptable as proof of service performed.

- Disciplinary action will occur for any student who has submitted forged or false documentation for community service. The student will not receive credit for the service and the matter will be handled in a manner consistent with FS Student Handbook.
- Students who are planning to attend a participating community college or vocational/technical school, should perform at least 50 hours of unpaid tutoring or mentoring in order to fulfill one of the eligibility requirements for A+ Scholarship Program. Further information about this program can be found under A+ Scholarship Program section of this guide.
- Transfer students may transfer documented community service hours completed at their previous school. Students are still expected to meet the 60-hour community service requirement unless an adjustment is approved by the school. To have transferred hours accepted, students must provide appropriate documentation verifying the service completed. The school reserves the right to review all submitted documentation and determine the number of hours that will be accepted.
- **IF YOU ARE NOT CERTAIN WHETHER OR NOT AN ACTIVITY WILL COUNT**, please contact your school counselor.

Acceptable Community Service Hours

Examples of community service include but are not limited to the following activities:

- Tutoring
- Care packages for military personnel
- Museums, hospitals, libraries, zoos, food bank, nursing homes
- Red Cross, Serving Meals to the Homeless, community clean-up
- Faith based organizations – churches, mosques, synagogues etc.
- You can use www.harvesters.org to find a closest community service event

Unacceptable Community Service Hours

- Getting paid for the service
- Engaging in preaching
- Activities during school hours, exceptions may apply during the blood drive and similar activities
- Hours done at a private household and for-profit entities

All community service hours and supporting documentation must be submitted through the student's SchoolLinks account for review and approval.

SECTION IV:

Advanced Placement (AP)

Pre-Advanced Placement (Pre-AP)

Frontier Schools offers Pre-Advanced Placement (Pre-AP) courses to provide academically prepared students with a rigorous foundation for success in Advanced Placement (AP), Dual Credit, and other advanced coursework.

Pre-AP courses emphasize critical thinking, analytical reading, academic writing, problem-solving, collaboration, and independent learning skills necessary for college-level study.

Eligibility and Student Selection

Enrollment in Pre-AP courses is based on a comprehensive review of multiple academic indicators. Students may be considered for placement using factors that include, but are not limited to:

- State assessment performance
- Academic achievement from NWEA or other comparable assessments
- Classroom grades
- Other relevant academic information maintained by the district

Frontier Schools may utilize a standardized ranking and selection process to identify students who demonstrate readiness for Pre-AP coursework. Placement decisions shall be made by school administration based on available data and course capacity.

Students who experience significant academic difficulty may be recommended for placement in the corresponding on-level course after consultation with teachers, counselors, and administrators.

Course Availability

Pre-AP courses are offered based on student interest, staffing, and enrollment. Frontier Schools reserves the right to add, modify, or discontinue Pre-AP course offerings as needed.

Advanced Placement – Enrollment Guidelines

FS supports any student who wants to accept the challenges of an advanced class. The opportunity to be in Advanced Placement (AP) classes' carries with it certain assumptions about the capabilities and maturity of students completing the college level work that AP courses represent. AP coursework requires students to engage in more independent analytical reading, academic discourse, and writing assignments, both inside and outside the classroom.

Students with disabilities are allowed the same opportunity to participate in AP classes as their non-disabled peers. The same eligibility criteria and expectations would apply to these students, but they can receive an accommodation in an advanced class, unless that accommodation would alter the content or academic standards of the AP class. The student must also be eligible to receive the accommodation in a regular class.

College Board can allow students with disabilities to use accommodations in exams including AP exams if it is shown that these students' disabilities affect their test participation. Campus special education coordinator and High School counselor can be contacted for College Board accommodation request process and more.

The following AP enrollment guidelines will be used to match the level and complexity of the AP curriculum with the readiness and motivation of the students. The campus AP Committee has the right to make collaborative enrollment decisions and process appeals.

Phase 1: Registering for an AP Class Flowchart

The following 2 flowcharts summarize the registration and enrollment process for an AP Class.

During Phase 1, students decide which AP classes they would like to register for and confirm the maximum number of concurrent AP classes. Student academic performance is used during the strategic placement of students into AP classes. This allows to identify students who are likely to score a 3 or higher on a given AP.

Decisions to register can be appealed via the campus AP Committee.

January–February Timeline

(Timeline is subject to change based on campus.)

Phase 2: Completing Summer Assignment & Contract Flowchart

Final decision to enroll and start the AP course is contingent upon the completion of the summer assignment and signing of the AP contract.

Note:

- Summer work must be completed prior to the beginning of second week
- Students and parents must sign an AP contract and agree with the AP course guidelines

August–September Timeline

(Timeline is subject to change based on campus.)

AP Committee will consider the following indicators when making a final decision to enroll a student into an AP class:

- | | |
|---------------------------------------|-------------------------------|
| • AP Potential – Academic Performance | • SAT/ACT and other test data |
| • Teacher Recommendations | • Previous AP Experience |
| • AP Exams | • GPA |

Students in AP Courses are expected to:

- Be independent learners that are willing to read, learn, and ask questions as well as pursue outside reading and research
- Discuss and share material relevant to the course in a collegial manner
- Spend adequate time every week studying or in tutorials to avoid falling behind
- Accept that enrollment in an AP course does not guarantee an A or B grade
- Openly accept assignments, suggestions, and coaching from the teacher
- Maintain a level of academic integrity that reflects the college level of an AP course
- Thoughtfully select their course load
- Prepare to take the AP exam in May for the course(s) in which they are enrolled
- Comply with any amendments to these expectations that their AP teacher chooses to implement

Students are expected to take the following action in order to avoid falling behind an AP course:

- Confer with their AP teacher weekly before/after school or via email
- Take immediate action in coordination with their AP teacher; this could include attending tutorials, completing supplemental work, or other appropriate action.

By registering for an AP course, students are making a commitment for the entire length of the course. Students should understand that registration for multiple AP courses is a commitment to undertake a challenging academic schedule.

SECTION V:

Dual Credit Program

Dual credit courses provide high school students an opportunity to experience rigorous college-level coursework and to receive, simultaneously, both high school and college-level course credit. Providing dual credit opportunities to high school students not only works to increase the number of students graduating from high school and attending college, but also to reduce students' costs and time to degree completion

(Coordinating Board for Higher Education Policy on Dual Credit Delivery)

What is Dual Credit?

- Dual Credit courses are courses offered for dual credit from agreements between high schools, universities and community colleges whereby a high school student enrolls in a college course and simultaneously earns college credit and high school credit for the course.
- Partnerships between Missouri secondary schools and Missouri colleges and universities have enabled high school students to earn college credits before graduating from high school, making their transition to the collegiate campus smoother and their likelihood of graduating from college greater.
- Courses are offered by accredited colleges and include both academic and career/technical courses. FS Dual Credit Program is designed towards helping students complete 42–43 credit hours which are known as General Education courses. Courses taken as dual credit will transfer to Missouri public institutions according to their transfer policies. Private and out-of-state institutions choose which courses to accept and whether credit for Dual Credit coursework will be honored.
- To ensure that students are taking meaningful dual credit courses, they need to be aware of the requirements and degree/certification requirements in their field of interest as well as their two-year college and their future four-year college. By tracking students' college coursework along with their high school graduation plan, students should be aware of their progress toward the college goals.
- College courses offered for dual credit may be offered online, taught at the college campus or the high school campus by credentialed instructors. Courses offered for dual credit include the same content and rigor as courses taught to other college students, utilizing the same instructors, curriculum and policies.
- The number of Dual Credit courses students can take will depend on course load and schedule availability of each student. A student taking 15 college credit hours per semester, including AP and Dual Credit courses, has the course load of a full-time college student. Considering the workload and the importance of academic success, students cannot be enrolled in more than 15 college credit hours per school semester.

Why Dual Credit?

The benefits to high school students who participate in dual credit courses are numerous. At many colleges, students are able to earn 12 or more hours of college credit prior to graduating from high school.

Advantages for dual credit students include the following:

- Receive high school and college credit for courses in which they earn a "C" or better
- Fast-track their undergraduate or vocational degrees
- Save on tuition and fees by accelerating time to complete a degree
- Reduced cost of enrolling in higher education courses
- Opportunity to access college facilities and resources such as tutoring services, computer labs, and counseling services
- Enhances skills required to be successful at the collegiate level such as time management skills, critical thinking skills, study skills and following directions and procedures

How Do Students Qualify for Dual Credit?

In order to be eligible for dual credit courses all prospective dual credit students must meet the same requirements for placement into individual courses, (e.g., English or mathematics) as those required of on-campus students. Institutions that use placement tests to assess students' readiness for college-level, individual courses must ensure that these students score proficient or above on the ACT or other common placement tests as adopted by the CBHE.

In addition to these requirements:

- A.** Students in the 11th and 12th grades with an overall minimum grade point average of 3.0 *(on a 4.0 scale)* are automatically eligible for dual credit courses.
- B.** Students in the 11th and 12th grades with an overall grade point average between 2.5 – 2.99 *(on a 4.0 scale)* must provide a signed letter of recommendation from their principal or guidance counselor and provide written permission from a parent or legal guardian.
- C.** Students in the 10th grade must have an overall minimum grade point average of 3.0 *(on a 4.0 scale)* and must provide a signed letter of recommendation from their principal and college counselor and provide written permission from a parent or legal guardian.
- D.** Students in the 9th grade must have an overall minimum grade point average of 3.0 *(on a 4.0 scale)*, score at the 90th percentile or above on the ACT or SAT, and provide a signed letter of recommendation from their principal and college counselor and provide written permission from a parent or legal guardian.

Dual Credit Plan and High School Course Equivalency

At Frontier, students can take dual credit courses online through Missouri Southern State University's (MSSU) Core-42 program. Incoming sophomores will create a Dual Credit Plan based on MSSU's General Education requirements. Students who successfully complete approved dual credit courses will receive corresponding high school credit based on the course equivalency listed below:

College Course Hours		High School Credit
5 Hours	→	1 Credit
3-4 Hours	→	0.5 Credit
2 Hours	→	0.25 Credit
1 Hour	→	No Credit

Students can also take dual credit courses in-person through Metropolitan Community College (MCC) by approval of the College Counselor.

[Click here](#) for a detailed course catalog.

Frontier Schools Dual Credit Program Guidelines

Currently, FS offers free online dual credit courses to eligible students through Missouri Southern State University.

Below are the guidelines and conditions of the program:

- Eligible students must enter into a written agreement with the school before signing up for the classes. Dual Credit Program Agreement can be found under the Forms & Documents section of this guide.
- Eligible students must complete the On the Move Tuition Waiver Form.
[On the Move Tuition Waiver Form](#)
- School will cover the fees associated with dual credit courses (*tuition, textbook, other materials, etc.*) only if the students pass the courses. School diploma and the transcript will be withheld until the amount is paid.
- If a student fails, drops or withdraws from the course, all fees (*tuition, textbook, other materials, etc.*) must be paid back to school.
- The school will stop covering the costs of future dual credit courses if a student fails, drops or withdraws from the course. In order to continue taking dual credit courses in the future, the fees of the failed, dropped or withdrawn course must be fully refunded to school.
- Independent study classes may be granted to students who are taking Dual Credit courses. Any student who chooses to drop the dual credit course is no longer eligible for independent study classes and will be placed in another course by the counselor based on the availability of the schedule.
- Students may wish to retake a dual credit course to improve a failing or low grade. In this case, the fees (*tuition, textbook, other materials*) for the previous class must be fully paid back to school. Only the second (*the most recent*) grade will affect the GPA. Both grades will appear on the transcript.

SECTION VI:

College Counseling

Process at Frontier Schools

1. **College Aspirations:** Build a college-going culture based on early college awareness by nurturing in students the confidence to aspire to college and the resilience to overcome challenges along the way. Maintain high expectations by providing adequate support, building social capital, and conveying the conviction that all students can succeed in college.
2. **Academic Planning for College and Career Readiness:** Advance students' planning, preparation, participation, and performance in a rigorous academic program that connects to their college and career aspirations and goals.
3. **Enrichment and Extracurricular Engagement:** Ensure equitable exposure to a wide range of extracurricular and enrichment opportunities that build leadership, nurture talents and interests, and increase engagement with school.
4. **College and Career Exploration and Selection Processes:** Provide early and ongoing exposure to experiences and information necessary to make informed decisions when selecting a college or career that connects to academic preparation and future aspirations.
5. **College and Career Assessments:** Promote preparation, participation, and performance in college and career assessments by all students.
6. **College Affordability Planning:** Provide students and families with comprehensive information about college costs, options for paying for college, and the financial aid and scholarship processes and eligibility requirements, so they are able to plan for and afford a college education.
7. **College and Career Admission Processes:** Ensure that students and families have an early and ongoing understanding of the college and career application and admission processes so they can find the postsecondary options that are the best fit with their aspirations and interests.
8. **Transition from High School Graduation to College Enrollment:** Connect students to school and community resources to help the students overcome barriers and ensure the successful transition from high school to college.

Crosswalk of Career Paths/Clusters

Arts and Communications

(Artistic "Creators")

- **Clusters:** Arts, Audio/Visual Technology & Communications
- **Occupations include:** Architecture, Interior Design, Creative Writing, Fashion Design, Film, Fine Arts, Graphic Design, Journalism, Languages, Radio, TV, Advertising, Public Relations
- **Recommended Electives:** Computer Applications, Shop, Journalism, Drawing, Painting, Speech/Drama, Choir, Band, Music Appreciation, Textiles I & II, Housing, Graphic Arts, Drafting, Ceramics, Foreign Languages, Web Design and Digital Media, and Culinary Arts Programs
- **Clubs & Activities:** Drama, Art, Shop, & Graphics Clubs, Speech Contest, FCCLA, Yearbook
- **Possible Volunteer/Work Experience:** Community Theater, Church Choir, Radio/TV Station, Write for a Local Newspaper, Sing National Anthem at Events, Talent Shows, Face Painting

Human Services

(Social "Helpers")

- **Clusters:** Education & Training, Government & Public Administration, Hospitality & Tourism, Law/Public Safety/Corrections/Security
- **Occupations include:** Related to Economic, Political and Social systems, Education, Government, Law & Law Enforcement, Leisure & Recreation, Military, Religion, Child Care, Social Services and Personal Services
- **Recommended Electives:** Computer Applications, Drama, Child Development I & II, Culinary I & II, Psychology, American Government, Weight Training, Speech, Cont. Issues, Law, Advanced American History I & II, AP Psychology, AP Government, Sociology, Family Health, Tourism & Hospitality
- **Clubs & Activities:** Sports, Student Council, Class officer, FCCLA, TREND, Youth Alive, A+ Program, Teen CERT
- **Possible Volunteer/Work Experience:** Work for Political Campaigns, Day Care, Teacher Aide, YMCA, Scouts, Junior Achievement, A+ Tutor

Business, Management & Technology

(Conventional "Organizers")

- **Clusters:** Information Technology, Finance and Marketing
- **Occupations include:** Sales, Entrepreneurship, Marketing, Computers, Finance Accounting, Personnel, Economics and Management
- **Recommended Electives:** Computer Applications, Publications, Accounting, Marketing, Personal Finance, COE, Sports & Entertainment Marketing, Computer Graphics, Economics, Speech, Digital Media, Career Opportunities., Web Design, Desktop Publishing, Business Technology, Tourism & Hospitality, Digital Media and Business Management Program at the ATS
- **Clubs & Activities:** FBLA, DECA
- **Possible Volunteer/Work Experience:** Junior Achievement, Sales Projects for Clubs, Raise Money for Charitable Causes, Office or School Counseling Office Aide

Industrial & Engineering Technology

(Realistic/Investigative/ Conventional "Doers/ Thinkers/Organizers")

- **Clusters:** Architecture/Construction, Manufacturing, Science/ Technology/ Engineering/Math, Transportation, Distribution & Logistics
- **Occupations include:** Related to Design, Develop, Install, and Maintain Physical Systems, Engineering, Manufacturing, Construction, Service and related Techs
- **Recommended Electives:** Computer Applications, Geometry, Physics, Publications, Sculpture, Ceramics, Shop I, Small Engines, Architectural Drafting, Metals, Mechanical Drafting, ABC Science, Speech and Jefferson College programs in Electronics, Computer Aided Drafting, Auto Tech, Machine Tool Tech, Welding, Residential Carpentry, Residential Wiring
- **Clubs & Activities:** Shop, Math, Art, Graphics, and Computer Clubs, Yearbook
- **Possible Volunteer/Work Experience:** Maintenance and Repairing Small Appliances, Automobiles, or Computers

Health Services

(Investigative/Social “Thinkers/Helpers”)

- **Clusters:** Health Sciences
- **Occupations Include:** Related to the promotion of health and the treatment of disease. Research, Prevention, Treatment and related Technologies
- **Recommended Electives:** Anatomy/Physiology, ABC Science, Adv. Biology, Chemistry, Psychology, Computer Applications, Weight Training, Boys/Girls Health, Family Health, Contemporary Issues, Culinary I & II, Speech, Jefferson College Health Program
- **Clubs & Activities:** Science Club, FHA, Weight lifting, TREND, Teen CERT
- **Possible Volunteer/Work Experience:** Hospital Volunteer, Red Cross, Donate Blood, Food Service Advisory Board Member, Nurse/Pharmacist for a Day

Natural Resources

(Realistic “Doers”)

- **Clusters:** Agriculture, Food, Natural Resources
- **Occupations Include:** Related to Agriculture and Environment
- **Recommended Electives:** Agriculture Science, Environmental Science, Earth Science, Fisheries, Forestry, Horticulture and Wildlife Recommended Electives: Computer Applications, Geology, Ecology, Advanced Biology, Chemistry, Culinary, Speech, ABC Science
- **Clubs & Activities:** Missouri Conservation, Science Club, Outdoor Activities, Green Team
- **Possible Volunteer/Work Experience:** Adopt a Highway or River, Florist, Parks, Botanical Gardens, Zoo, Veterinary, Animal Shelter

Individual Student Planning Vocabulary

Career Awareness:

Gaining knowledge of career paths and job opportunities and the skills and qualifications necessary to be successful.

Career Exploration:

Process of learning about yourself and the world of work and developing and effective strategies to realize your goals.

Career Paths and Career Clusters:

Six career paths branch into 16 career clusters to provide a progressive framework to organize the world of work and career information. The framework provides the structure to assist students in understanding the world of work, and to organize course and co-curricular offerings in the school.

Career Pathways:

The 16 career clusters diverge into 78 career pathways.

Career Planning:

On-going processes that can help you manage your learning and career development.

School Counseling Grade Level Expectations (GLEs):

The systematic, sequential and developmentally appropriate set of knowledge, skill and understanding for the K-12 school counseling curriculum.

Individual Student Planning:

The process of on-going educational and career-planning services that helps all students develop personal plans of study organized around programs of study and their personal, career, and educational goals.

Life Career Development:

Self-development over the life span through the integration of roles, settings, and events of a person's life.

Missouri Career Education:

A collection of resources provided on Missouri Department of Elementary and Secondary Education website can be found [here](#).

Missouri Connections:

A free web-based career and educational planning resource to help Missouri citizens determine their career interests, explore occupations, establish education plans, develop job search strategies, and create résumés.

Personal Plan of Study (PPOS):

A student's scope and sequence of coursework and related activities based upon their chosen Career Path or Career Cluster and their educational goals. Initiated in the eighth grade, it is designed to insure a successful post-secondary transition. The key component of the Individual Student Planning Process.

Program of Study (POS):

Secondary-to-postsecondary sequences of academic and career education coursework, along with additional learning opportunities, that lead students to attain a postsecondary degree or industry-recognized certificate or credential.

- A. Process:** Missouri currently uses a 10 step process for the development of Programs of Study that is aligned with federal guidelines which includes creation of POS templates and secondary/post-secondary curriculum alignment.
- B. Template:** The model or form developed by schools that lists courses, occupations and additional learning opportunities to help students develop their personal plan of study. The completion of the POS template does not infer that the POS process has been completed.

SchoolLinks Portal

SchoolLinks is a modern, college and career readiness platform to prepare students for what comes after graduation. SchoolLinks helps students discover their interests and strengths, explore colleges and careers, and create an individualized career and academic plan that best reflects their post-secondary goals.

SchoolLinks features are incredibly user-friendly and were designed to streamline the college and career readiness workflow for counselors and staff.

The advantages of using SchoolLinks include the following:

- Centralize all student info in one place (course plans, resumes, transcripts, scores, etc.)
- Build student Individual Career & Academic Plan (ICAP)
- Communicate with students and parents
- Visualize analytics to understand cohort level trends
- Track students' college applications
- Post internships, scholarships and career fairs
- Send electronic transcripts and supporting documents

What students and families can do:

- Portfolio building capabilities for K–12th grade students
- Access career interest, strength and mindset surveys
- Explore 2-year and 4-year colleges as well as take virtual reality college campus tours
- Search for scholarships and learn about financial aid
- Explore traditional, emerging and military career fields and internship/volunteer opportunities
- Create digital portfolios and resumes
- Build their Individual Career & Academic Plan (ICAP)
- Communicate with counselors

Individual Career and Academic Plan

Pursuant to Section 167.903 of Senate Bill 638 of Department of Elementary and Secondary Education of Missouri, middle school 8th grade students will complete their personal study plan.

The Individual Career & Academic Plan (ICAP), is a plan of study to guide students through the coursework and activities for achieving personal career goals, post-secondary planning and providing individual pathway options. An ICAP is a multi-year process, beginning no later than the eighth grade, that intentionally guides students and families in the exploration of career, academic and multiple post-secondary opportunities to include *direct access to the workforce *military *tech school/area career center *vocational training (*apprenticeship*), *2 year college and *4 year college. An ICAP is a “roadmap” to help students develop the awareness, knowledge, attitudes, and skills to create their own meaningful pathways to be success ready graduates. The ICAP, which stands for Individual Career and Academic Plan, is a tool mandated by the state of Missouri to help you plan for your future. It is required that each student complete the sections required for their grade level prior to registering for classes for the next school year.

Critical Shortage Occupations

Section 167.902, RSMo, requires the Department of Economic Development to annually identify occupations in which there is a critical need or shortage of trained personnel in Missouri's labor market.

Information related to the bill's requirements is available on the DESE [School Counseling Legislation](#) webpage.

To view the High-Demand Occupations list, please [click here](#).

High-Demand Occupations

The following occupations were identified from using the Long Term Occupational Projections 2020–2030 for Missouri. The data was extracted from the MERIC website. <https://meric.mo.gov/workforce-research/occupational-projections>. The Long-term Projections (Statewide–MO All Occupations) information was used to determine the high-demand occupations list. Only occupations receiving a MERIC grade of "A" or "B" were considered for this list. Regardless of grade, any occupation listed as requiring less than a high school diploma and listed as only short-term on-the-job training were not be eligible. The level of formal educational attainment required, as identified through MERIC data, may not exceed an associate degree to be listed as high-demand.

1. Aerospace Engineering and Operations Technicians
2. Agricultural and Food Science Technicians
3. Aircraft Mechanics and Service Technicians
4. Architectural and Civil Drafters
5. Audio and Video Equipment Technicians
6. Automotive Body and Related Repairers
7. Automotive Service Technicians and Mechanics
8. Billing and Posting Clerks
9. Brickmasons and Blockmasons
10. Bus and Truck Mechanics and Diesel Engine Specialists
11. Cabinetmakers and Bench Carpenters
12. Calibration and Engineering Technologists and Technicians, Except Drafters, All Other
13. Cardiovascular Technologists and Technicians
14. Cargo and Freight Agents
15. Carpenters

16. Chefs and Head Cooks
17. Chemical Technicians
18. Childcare Workers
19. Civil Engineering Technicians
20. Claims Adjusters, Examiners, and Investigators
21. Coating, Painting, and Spraying Machine Setters, Operators, and Tenders
22. Commercial Pilots
23. Community Health Workers
24. Computer Network Support Specialists
25. Computer Numerically Controlled Tool Operators
26. Computer Numerically Controlled Tool Programmers
27. Computer Systems Analysts
28. Computer User Support Specialists
29. Construction and Building Inspectors
30. Construction Laborers
31. Cooks, Fast Food
32. Cooks, Short Order
33. Customer Service Representatives
34. Cutting, Punching, and Press Machine Setters, Operators, and Tenders, Metal and Plastic
35. Dental Assistants
36. Dental Hygienists
37. Dental Laboratory Technicians
38. Detectives and Criminal Investigators
39. Diagnostic Medical Sonographers
40. Dispatchers, Except Police, Fire, and Ambulance
41. Electrical and Electronics Engineering Technicians
42. Electrical Power-Line Installers and Repairers
43. Electrical, Electronic, and Electromechanical Assemblers, Except Coil Winders, Tapers, and Finishers
44. Electricians
45. Electro-Mechanical Technicians
46. Elevator Installers and Repairers
47. Emergency Medical Technicians and Paramedics
48. Excavating and Loading Machine and Dragline Operators, Surface Mining
49. Extruding, Forming, Pressing, and Compacting Machine Setters, Operators, and Tenders
50. Farm Equipment Mechanics and Service Technicians

51. Farmers, Ranchers, and Other Agricultural Managers
52. Firefighters
53. First-Line Supervisors of Construction Trades and Extraction Workers
54. First-Line Supervisors of Fire Fighting and Prevention Workers
55. First-Line Supervisors of Food Preparation and Serving Workers
56. First-Line Supervisors of Housekeeping and Janitorial Workers
57. First-Line Supervisors of Mechanics, Installers, and Repairers
58. First-Line Supervisors of Non-Retail Sales Workers
59. First-Line Supervisors of Office and Administrative Support Workers
60. First-Line Supervisors of Police and Detectives
61. First-Line Supervisors of Production and Operating Workers
62. First-Line Supervisors of Retail Sales Workers
63. First-Line Supervisors of Transportation & Material Moving Workers, Except Aircraft Cargo Handling
64. Fitness Trainers and Aerobics Instructors
65. Food Service Managers
66. Glaziers
67. Hairdressers, Hairstylists, and Cosmetologists
68. Health Information Technologists, Medical Registrars, Surgical Assistants, & Healthcare Practitioners, AO
69. Healthcare Support Workers, All Other
70. Heating, Air Conditioning, and Refrigeration Mechanics and Installers
71. Heavy and Tractor-Trailer Truck Drivers
72. Helpers--Pipe layers, Plumbers, Pipefitters, and Steamfitters
73. Helpers--Production Workers
74. Highway Maintenance Workers
75. Home Health and Personal Care Aides
76. Industrial Engineering Technicians
77. Industrial Machinery Mechanics
78. Installation, Maintenance, and Repair Workers, All Other
79. Insulation Workers, Mechanical
80. Insurance Claims and Policy Processing Clerks
81. Insurance Sales Agents
82. Landscaping and Groundskeeping Workers
83. Licensed Practical and Licensed Vocational Nurses
84. Life, Physical, and Social Science Technicians, All Other

85. Light Truck or Delivery Services Drivers
86. Loan Interviewers and Clerks
87. Locomotive Engineers
88. Machinists
89. Magnetic Resonance Imaging Technologists
90. Maintenance and Repair Workers, General
91. Maintenance Workers, Machinery
92. Massage Therapists
93. Medical Assistants
94. Medical Dosimetrists, Medical Records Specialists, and Health Technologists and Technicians, All Other
95. Medical Equipment Preparers
96. Medical Equipment Repairers
97. Medical Secretaries
98. Millwrights
99. Miscellaneous Assemblers and Fabricators
100. Mixing and Blending Machine Setters, Operators, and Tenders
101. Mobile Heavy Equipment Mechanics, Except Engine
102. Molders, Shapers, and Casters, Except Metal and Plastic
103. Molding, Coremaking, and Casting Machine Setters, Operators, and Tenders, Metal and Plastic
104. Multiple Machine Tool Setters, Operators, and Tenders, Metal and Plastic
105. Nursing Assistants
106. Occupational Therapy Assistants
107. Operating Engineers and Other Construction Equipment Operators
108. Ophthalmic Medical Technicians
109. Outdoor Power Equipment and Other Small Engine Mechanics
110. Packaging and Filling Machine Operators and Tenders
111. Paralegals and Legal Assistants
112. Paving, Surfacing, and Tamping Equipment Operators
113. Pharmacy Technicians
114. Phlebotomists
115. Physical Therapist Assistants
116. Plumbers, Pipefitters, and Steamfitters
117. Police and Sheriff's Patrol Officers
118. Police, Fire, and Ambulance Dispatchers

- 119. Preschool Teachers, Except Special Education
- 120. Production Workers, All Other
- 121. Production, Planning, and Expediting Clerks
- 122. Property, Real Estate, and Community Association Managers
- 123. Psychiatric Technicians
- 124. Radiologic Technologists
- 125. Railroad Conductors and Yardmasters
- 126. Real Estate Brokers
- 127. Real Estate Sales Agents
- 128. Recreational Vehicle Service Technicians
- 129. Registered Nurses
- 130. Respiratory Therapists
- 131. Sales Representatives, Services, All Other
- 132. Sales Representatives, Wholesale and Manufacturing, Except Technical and Scientific Products
- 133. Security and Fire Alarm Systems Installers
- 134. Security Guards
- 135. Self-Enrichment Education Teachers
- 136. Separating, Filtering, Clarifying, Precipitating, and Still Machine Setters, Operators, and Tenders
- 137. Sheet Metal Workers
- 138. Social and Human Service Assistants
- 139. Structural Iron and Steel Workers
- 140. Surgical Technologists
- 141. Surveying and Mapping Technicians
- 142. Teacher Assistants
- 143. Telecommunications Line Installers and Repairers
- 144. Tool and Die Makers
- 145. Transportation, Storage, and Distribution Managers
- 146. Veterinary Assistants and Laboratory Animal Caretakers
- 147. Veterinary Technologists and Technicians
- 148. Web Developers and Digital Interface Designers
- 149. Welders, Cutters, Solderers, and Brazers
- 150. Woodworking Machine Setters, Operators, and Tenders, Except Sawing

Missouri Public School Career Centers Map

Career centers across Missouri offer training in a wide range of occupations, including those identified as having a critical need or shortage of trained personnel in the state's labor market. Training in many of these fields leads to industry-recognized credentials and certificates that are highly valued by employers.

The map available at this link provides direct connections to each career center. Individuals and schools are encouraged to contact their local career center to learn more about available occupational training opportunities and applicable licensing requirements.

[Missouri Public School Career Centers Map](#)

Additional Resources

[MERIC Occupational Studies](#)

The MERIC website offers a variety of resources, including occupational data, career exploration tools, target industry real-time briefs, and workforce studies.

[MERIC Industry Studies](#)

Resources include information on employment trends and projections, Missouri industries and businesses, industry clusters, target industry briefs, export data, and special projects. These materials can be accessed here.

This resource provides statewide projections to support workforce planning and labor market analysis.

SECTION VII:

A+ Scholarship Program

The A+ Scholarship Program provides scholarship funds to eligible graduates of A+ designated high schools who attend a participating public community college or vocational/technical school, or certain private two-year vocational/technical schools.

- Be a U.S. citizen or permanent resident.
- Enter into a written agreement with your high school prior to graduation.¹
- Attend a designated A+ high school for 2 years immediately prior to graduation.²
- Graduate with an overall grade point average of 2.5 or higher on a 4.0 scale.
- Have at least a 95% attendance record overall for grades 9–12.
- Perform at least 50 hours of unpaid tutoring or mentoring, of which up to 25% may include job shadowing prior to graduation.³
- Maintain a record of good citizenship and avoid the unlawful use of drugs and/or alcohol while in grades 9–12.
- Have achieved a score of proficient or advanced on the Algebra I end of course exam or a higher level DESE approved end-of-course exam in the field of mathematics.⁴

¹ A+ Program Agreement Form can be found under the Forms & Documents section of this guide.

² If one of your parents is a member of the military on active duty or has retired from the military and relocated to Missouri within one year of their retirement, you are exempt from this requirement. However, you must attend an A+ designated high school in the school year immediately preceding graduation and meet all of the other high school eligibility requirements.

³ High school policy may allow this criterion to be met up to 6 months beyond high school graduation in exceptional circumstances. Check with your high school's A+ coordinator to see if this is an option.

⁴ High School Seniors: If you meet all of the eligibility requirements except the end of course exam requirement, you may establish eligibility by achieving a combined ACT math subscore and high school GPA in accordance with the following scale. You may achieve the qualifying score as a high school or postsecondary student. If you achieve the score as a postsecondary student you may be eligible for an award in the same term that you take the test.

ACT Math Score		High School GPA
17 or greater	and	2.5 or greater
16	and	2.8 or greater
15	and	3.0 or greater

SECTION VIII:

Course Descriptions

Specific Requirements and Interpretive Notes for Missouri High School Graduation Requirements:

English Language Arts

Missouri high school graduates must earn at least four units to enable students to master important knowledge and skills in standard grammar and usage; composition; reading widely and deeply in both literary and informational texts; writing routinely for a variety of tasks, purposes and audiences; speaking and listening using multiple modalities including technology; language skills demonstrating control of the conventions of standard English; and vocabulary acquisition and use.

Interpretative Notes: Courses in world languages (including American Sign Language, ASL), school publications, yearbook, media, photography, and radio and television may not be counted toward meeting the minimum requirements. Speech and debate courses are counted for English language arts credit. Scholastic journalism (mass media) may be counted for language arts credit, but only if it is taught by a certificated English teacher.

Mathematics

Missouri high school graduates must earn at least three units selected to ensure that students have strong problem-solving skills and a foundation in the mathematical concepts of number sense, geometry and spatial sense, measurement, data analysis, statistics, patterns and relationships, algebraic thinking, mathematical systems, number theory, and discrete topics.

Interpretative Notes: Courses commonly named “computer math,” the content of which is computer literacy, introductory computer programming, and nominal mathematics applications on computers may not be counted toward meeting the minimum requirements in mathematics.

Science

Missouri high school graduates must earn at least three units selected to ensure that students have mastered the unifying concepts, principles and laws common to all the sciences; can competently apply the scientific practices; and can organize and solve scientific problems in consumer, career and technical environments.

Social Studies

Missouri high school graduates must earn at least three units selected to enable students to master important knowledge and skills in the areas of civic knowledge and responsibility; economic systems and functions; governmental functions; geography; world history; and American history. One of the three units must be American history, and the equivalent of one-half unit must be in government.

Fine Arts

Missouri high school graduates must earn at least one unit, which must be from the following: music, visual arts, dance, or theater. The content ensures that students master fundamental knowledge of the subject, including history, aesthetics, and criticism, and are able to produce or perform at an introductory level in at least one area of fine arts.

Interpretative Notes: Only music, visual arts, dance, or theater may be counted toward meeting the minimum requirements. World languages (including ASL), literature, literature appreciation, speech, debate, radio and television, and stagecraft may not be counted. To earn fine arts credit for marching band or drum corps, students must also play musical instruments and participate during times of concert or performing activities.

Practical Arts

Missouri high school graduates must earn at least one unit designed to provide life skills or to contribute to the student's career goals.

Interpretative Notes: Practical arts courses are those in which students learn to integrate academic knowledge and skills with pre-vocational and career technical knowledge and skills, and to apply them in authentic situations. Practical arts courses include courses of general interest such as computer applications, school publications, and technology education, as well as career technical education courses.

Physical Education

Missouri high school graduates must earn at least one unit that provides students with knowledge and skills necessary for developing and maintaining a lifestyle that fosters physical fitness, participation in recreational activities, and general concern for personal well-being.

Interpretative Notes: Physical education programs must focus on the knowledge and skills needed for the development of cardiorespiratory endurance, muscular strength, flexibility and body composition; and stress the importance of physical activity as an important component of lifetime health and wellness. Courses devoted to conditioning for interscholastic sports or practicing for interscholastic sports may not be counted toward meeting the minimum requirement. Courses offered for elective credit may include exercise or learning about team or individual sports.

Health

Missouri high school graduates must earn at least one-half unit that addresses structures of, functions of, and relationships among human body systems; principles and practices of physical and mental health (*such as personal health habits, nutrition, stress management*); diseases and methods for prevention, treatment and control; principles of movement and physical fitness; methods used to assess health, reduce risk factors, and avoid high risk behaviors (*such as violence, tobacco, alcohol and other drug use*); consumer health issues (*such as the effects of mass media and technologies on safety and health*); and, responses to emergency situations.

Personal Finance

Missouri high school graduates must earn at least one-half unit that addresses the Missouri competencies in the areas of income, money management, spending and credit, and saving and investing. It is recommended that the Personal Finance course be completed after the ninth grade because of the specific content and its relevance for persons reaching the age at which they must begin to assume financial responsibilities. However, grade level designations are not included in the Rule, so the grade level at which Personal Finance may be taught is ultimately an individual school district's decision. Although the Graduation Handbook does refer to specific grade levels at which the course is to be offered, that document is meant for technical assistance only.

Electives

Missouri high school graduates must earn at least seven units selected to ensure mastery of important basic academic knowledge, skills and competencies which may otherwise not have been mastered; to extend and enhance mastery of advanced academic skills; to prepare students with employment skills; and, for students not pursuing postsecondary education, to ensure that they have the knowledge and skills needed to prepare for employment in current and emerging fields.

Interpretative Notes: Every elective should be chosen because the knowledge and skills taught in the course will strengthen a student's career-education preparation and increase the student's probability of succeeding in postsecondary education. Students should not be permitted to select electives randomly or simply to accumulate the required number of units of credit.

Missouri Coordinating Board for Higher Education High School Core Curriculum Requirement Course Description (CBHE):

The Coordinating Board for Higher Education (CBHE), the Missouri Department of Higher Education (MDHE), Missouri higher education institutions, and the Missouri K–12 community share a common interest in promoting student preparation as a foundation of enrollment, retention, and success in Missouri postsecondary institutions.

Accordingly, with collaboration across educational sectors, the CBHE has established a recommended 24-unit high school core curriculum guideline for students who plan to enroll in a Missouri college or university. The CBHE 24-unit high school core curriculum is designed to prepare high school students for access to and retention/success in collegiate-level work. Students are expected to demonstrate competency in high school core content. Failure to do so may result in placement in developmental/remedial coursework at an additional time and expense to the student.

The CBHE encourages governing boards at Missouri’s higher education institutions to incorporate the 24-unit high school core curriculum into admissions processes for all first-time freshmen; however, admissions and placement decisions are ultimately made at the institutional level. Requirements vary for admission to Missouri institutions. For example, foreign language study is required for admission to some institutions. Students are strongly encouraged to discuss admissions requirements and placement practices with staff at Missouri institutions in which they may be interested in enrolling. The CBHE Recommended College Preparatory High School Curriculum is recommended for full implementation beginning with the Missouri college graduation class of 2018 (*entering as college freshman in the Fall of 2014*).

For students graduating from high school having earned the minimum requirement of 24 credits, the CBHE recommends a core curriculum which includes units by content area as follows:

CBHE-Recommended Coursework	
English/Language Arts	4 Units
Social Studies	3 Units
Mathematics	4 Units*
Fine Arts	1 Unit
Additional Coursework	3 Units**
Electives	6 Units***

* At least one mathematics course should be taken each year. It is particularly important that students take a mathematics course in grade 12.

** Missouri public high school students are required by the State Board of Education to complete units in practical arts (1), physical education (1), health education (1/2), and personal finance (1/2).

*** All students should complete at least 3 total elective units in foreign language and/or other courses within high school core content areas defined below. Two units of a single foreign language are strongly recommended.

For each high school core content area, descriptions follow that provide illustrations of coursework acceptable and unacceptable for the high school core curriculum.

English/Language Arts

- English/language arts coursework (4 units) emphasizes college preparatory composition, research skills, analysis of literature, and other content of comparable or greater rigor. Speech and debate courses may be included.
- Coursework not acceptable for the high school core curriculum emphasizes student publications, broadcast media, or theater.

Social Studies

- Social studies coursework (3 units) emphasizes American history, Missouri government and Missouri history as required by state statute, geography/world civilizations, and other content of comparable or greater rigor.
- Coursework not acceptable for the high school core curriculum emphasizes family/human development or consumer education.

Mathematics

- Mathematics coursework (4 units) emphasizes college preparatory algebra and other content of comparable or greater rigor. Students who complete algebra prior to the freshman year would be expected to complete four additional units in grades 9–12. Students who achieve a proficiency score of 3 or 4 on the Smarter Balanced grade 11 assessment must demonstrate continued study of mathematics for the score to be considered valid in the first year of college.
- Coursework that emphasizes pre-algebra, computer math/programming, consumer/basic math, or business math/accounting is not acceptable for the CBHE Recommended College Preparatory High School core curriculum.

Science

- Science coursework (3 units) emphasizes college preparatory biology, chemistry, and other content of comparable or greater rigor. Science coursework should include at least one laboratory course.
- Coursework not acceptable for the high school core curriculum emphasizes general or consumer science.

Fine Arts

- Fine arts coursework (1 unit) emphasizes visual arts, instrumental or vocal music, dance, theater, or other content of comparable or greater rigor. Critical analysis, theory, or “appreciation” courses may be included.
- Coursework not acceptable for the high school core curriculum emphasizes speech, debate, or broadcast media.

Forms & Documents

DUAL CREDIT PROGRAM AGREEMENT

Dual credit courses, taken through Missouri Southern State University, offer students the opportunity to earn both high school and college credit in the same class. High school students must meet the university's eligibility criteria and be approved by school administration to enroll in dual credit courses. Students will take the classes online at school. The classes can be accessed anywhere with an internet connection such as home, library, etc. All students are required to remain at the high school for all dual credit classes. **Students can take up to 15 college hours depending on his/her high school schedule per semester.**

Classes at Missouri Southern State University (MSSU) cost \$60 per credit plus fees for textbooks and other materials. School will cover the cost for tuition and for the required materials only if a student passes the classes. The students who drop/withdraw, retake or fail classes must pay the amount paid to MSSU back to Frontier Schools. The students will earn the corresponding high school credit below.

College Course Hours		High School Credit
5 Hours	→	1 Credit
3-4 Hours	→	0.5 Credit
2 Hours	→	0.25 Credit
1 Hour	→	No Credit

Note: Students will not earn any high school credit if they complete one hour of college course. These courses will appear on student's transcripts without affecting their GPAs.

Student: I have read the provisions set forth for dual credit enrollment, and agree to comply with the rules and regulations. In addition, I authorize Missouri Southern State University to release my grades to my high school.

A+ PROGRAM PARTICIPATION AGREEMENT

Student Last Name

Student First Name

Student Grade Level

I want to participate in the A+ Schools Program. I understand that the graduates who qualify may be eligible to receive financial assistance with tuition and fees to any public community college, vocational, or technical school in the state of Missouri, contingent upon continued funding by the Missouri Legislature.

It is my intent to meet or exceed the eligibility requirements listed below that may allow me to participate in the A+ Schools Program.

1. Be a U.S. citizen or permanent resident.
2. Enter into a written agreement with your high school prior to graduation.
3. Attend a designated A+ high school for 2 consecutive years immediately prior to graduation.
4. Graduate with an overall grade point average of 2.5 or higher on a 4.0 scale.
5. Have at least a 95% attendance record overall for grades 9-12.
6. Perform at least 50 hours of unpaid tutoring or mentoring, 25% may include job shadowing prior to graduation.
7. Maintain a record of good citizenship and avoid the unlawful use of drugs and/or alcohol while in grades 9-12.
8. Have achieved a score of proficient or advanced on the Algebra I end of course exam or a higher level DESE approved end-of-course exam in the field of mathematics.

Further, to maintain eligibility after graduation, I must meet the following criteria:

1. Attend, on a full-time basis, a Missouri public community college, vocational or technical postsecondary institution.
2. Maintain a GPA of 2.5 or higher on a four (4)-point scale.

The student and parent/guardian must sign this A+ Program Participation Agreement before the student will be considered for participation in the A+ Schools Program. By signing this agreement the student and parent/guardian certify that they have read, understand and agree to the A+ eligibility requirements listed above.

_____ **Accept:** I agree to participate and work to meet all the A+ eligibility requirements.

_____ **Decline:** I decline to participate in the A+ program.
